SUMMARY

This bill would have established the "Raising Educational Aspirations and Choices in Higher Education" program or Project REACH which expands the existing Upward Bound, Talent Search and Student Support Services programs. These programs, which provide grants and contracts to qualified individuals from culturally, physically or financially disadvantaged backgrounds who are preparing for or pursuing post-secondary education, are currently funded to serve less than 5% of the eligible population in this state. Project REACH would have addressed this situation by increasing funds to each of these three programs.

The committee amendment amends the appropriation clause to provide a position and funding for the Department of Educational and Cultural Services to administer Project REACH for 1989-90 and 1990-91. The amendment also specifies how the Project REACH funds are to be distributed among the Upward Bound, Talent Search and Student Support Services Programs.

SUMMARY

This bill would have required public schools in which 40% or more of enrolled students are eligible for free or reduced price meals to provide kindergarten and other part-day students a meal that meets the requirements of the National Breakfast Program. Under current law, the program is made available when an especially needy school, designated as one in which 50% or more of the children in attendance are eligible for free or reduced price meals under federal regulations, determines in a public hearing that there is parental interest in participating in the program.
