SUMMARY

This bill makes certain changes in the Additional Support for People in Retraining and Education Program (ASPIRE).

The bill provides that teenage parents may be required to register in the Family Services Program, designed to encourage the completion of education and to enhance self-sufficiency. It requires that each person participating in the Family Services Program have a case manager. It further specifies that a portion of the total ASPIRE program funds be allocated to the Family Services Program, and requires additional information in the joint report submitted by the Department of Human Services and the Department of Labor to the Legislature due on February 14, 1990.

The bill also requires that all ASPIRE participants who lose their Aid to Families with Dependent Children benefits as a result of finding work through the program receive written notice of their eligibility for extended medical assistance and an opportunity for hearing before their medical benefits under the ASPIRE program are terminated.
