AMENDMENTS ADOPTED

SUMMARY

This bill would have directed the Board of Environmental Protection to adopt standards governing the impact of wastewater discharges on surface water color by March 31, 1990. The bill also directed the Commissioner of Environmental Protection to undertake a study of the color issue together with recommendations for color standards on a river-by-river and discharge-by-discharge basis. The commissioner was directed to obtain an independent review of the study and submit it with recommendations to the committee by February 1, 1990. The committee voted not to pass the bill. AMENDMENTS ADOPTED

H-580

SUMMARY

This bill, as amended by the committee (H-580), provides for 2 methods of fee payment for transportation of hazardous materials by rail; a quarterly payment system or a single annual \$25,000 payment. This allows railroads which carry small amounts of hazardous materials to make lower payments based on the actual amount of hazardous materials transported. The current monthly payment provision is changed to quarterly payments. This amendment also requires registrants whose quarterly payment is 60 days overdue to pay the \$25,000 annual registration fee.

An exception is provided from the definition of hazardous materials for oil, since fees for the transportation of oil are already assessed.
