But, this document was produced by the efforts of all the office staff, including secretaries: Charlene Raymond, and Valarie Parlin, and especially Laurette Knox who coordinated preparation of the overall document.

Please give us your suggestions and comments on these summaries and tell us of any inaccuracies.

The original bill also requires the Commission to Study the Certificate of Need Law and the Impact of Competitive Market Forces on Ambulatory Health Care to include in its study an evaluation of methods of sizing the Hospital Development Account and establishes a new study commission to review the changes in this bill and report back to the Legislature by July 1, 1994.

The Committee Amendment clarifies that the requirement of providing charity care applies only to the services listed in the bill, excludes from the requirement certain imaging screening procedures, changes the factors qualifying a service and provides an affirmative defense to a charge of failure to provide services.

In addition, the Committee Amendment makes a conforming technical change to the affiliated interests section and adds reporting requirements to allow the Maine Health Care Finance Commission to monitor the frequency, characteristics and timing of those hospital restructurings that will no longer require prior approval of the Commission.
