AMENDMENTS ADOPTED

S-113

SUMMARY

This bill amends provisions of the law which relate to contingency reserve funds for consumer-owned water utilities. The bill sets a maximum annual contingency allowance which a consumer-owned water utility may provide for in rates (i.e. an estimated overcharge in rates to create surplus reserve funds). The bill also sets maximums that may be accumulated in a contingency reserve fund account for various sized water utilities. The bill allows amounts collected in excess of the maximum fund amounts to be credited to an unappropriated retained earnings account. The bill limits the use of the contingency reserve fund. The bill does not limit the use of the unappropriated retained earnings account.

The committee amendment (S-113) allows the Public Utilities Commission to reduce the rates of a consumer-owned water utility if the commission determines that the utility has an unreasonably large balance in its unappropriated retained earnings account. The amendment also requires a water utility to hold a public hearing if in each of three consecutive years the utility actually collects through its annual contingency fund allowance an amount equal to or greater than 7% of the utility's total annual operating revenue.
