that handle white goods, tires or brush from additional engineering or operational requirements as part of their relicensing.

Committee amendment "A" (H-181) changed the title and replaced the bill. Under this amendment, transfer stations, including associated uses permitted by license, and recycling facilities are not required to be relicensed unless the engineering or operational standards in effect at the time the previous license was issued are changed or if the facility significantly changes its operations. Solid waste license requirements for wood waste and demolition debris landfills associated with transfer stations are not affected by this amendment.

SUMMARY

This bill, as amended by Committee amendment "A" (H-256) allows people with overboard discharge licenses to waive state inspection if they have entered into an ongoing maintenance contract that includes inspection and have paid a \$30 waiver fee. Copies of these contracts and the results of inspections must be filed with the Department of Environmental Protection. The committee amendment also provides enforcement provisions and requires the Commissioner of Environmental Protection to report to the Legislature by 1993 on the waiver program. This amendment also adjusts the allocations affected by the bill and adds a fiscal note.

House amendment "A" (H-418) makes a technical correction regarding the determination of gross income under the sliding license fee schedule of 38 MRS 414, sub-53-A.
