Upon reconsideration, Committee Amendment "B" (H-631) was reported unanimously. It replaces the on-line, automated liquid and gaseous effluent monitoring systems required by the original bill with an enhancement of the current radiation monitoring system to allow 24-hour-per-day coverage of monitors. Fees paid by the Maine Yankee Nuclear Power Plant are increased in fiscal year 1991-92 to pay for new equipment required. This amendment also provides for a study of the adequacy of existing radiation monitoring systems in place at Maine Yankee Nuclear Power Plant.
