S-118

SUMMARY

The bill ensures that consumers who purchase frozen food from door-to-door sellers are informed of the actual price per unit of weight, such as price per pound, per ounce, et cetera, of the frozen food commodity. This bill also amends transient sellers laws so that door-to-door sellers of frozen foods are no longer exempt.

Committee Amendment "A" adds home solicitation sales on credit which were inadvertently omitted from the bill. It also requires that a copy of the price-per-unit information be given to the prospective purchaser.

H-446

SUMMARY

This bill clarifies that nursing assistants who completed a course with a curriculum considered by the State Board of Nursing to be substantially equivalent to the curriculum prescribed by the board may receive Maine certificates. It also establishes a temporary certificate for those people certified by other states who may not have had an equivalent course. It allows them a temporary certificate but requires them to meet a 150-hour training requirement and to take a competency test.

Committee Amendment "A" establishes the Maine Registry of Certified Nursing Assistants in accordance with the requirements of the federal Omnibus Budget Reconciliation Act of 1987. By adoption of rules, the Board of Nursing is to determine eligibility for listing on the registry and to provide for the temporary listing of nursing assistants who have received training in another jurisdiction. This registry is to include an indication as to whether the person registered has been convicted of certain types of crimes or has been found by the Department of Human Services to be guilty of certain infractions.

The amendment adds to the definition of "certified nursing assistant" a requirement that the person be listed in the registry.

The amendment also clarifies that the Department of Education must approve all nursing assistant programs from educational institutions that meet the qualifications and may approve only those programs from health care facilities that are not provided by an educational institution. The amendment gives the State Board of Nursing a consultive role regarding courses proposed by the Department of Education.
