The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries.

All adopted amendments are listed, by paper number (e.g., H - 584 or S - 222), together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various types of final action are abbreviated as follows:

SUMMARY

Currently, a person can become a journeyman electrician in 1 of the following ways:

1. Be a vo-tech college graduate and have 4,000 supervised hours of experience;
2. Be a vo-tech high school graduate and have 8,000 hours of supervised experience; or
3. Have 576 hours of study and 8,000 hours of experience.

This bill raises to 8,000 the hours of experience required of a vo-tech college graduate, abolishes educational credit for secondary level vocational schooling and abolishes the journeyman-in-training concept from the electricians' licensing laws by repealing the definition of journeyman-in-training electrician. The bill also clearly repeals the provision for this level of license that, by its own terms, terminates March 1, 1991 unless continued by the Legislature.

RUHLIN TARDY GARLAND CONSTANTINE	ONTP	

SUMMARY

This bill provides that if a contracted agent performs the pick-up obligation of a beverage distributor under the returnable container law, the contracted agent is responsible for sorting the beverage containers by brand. The bill also provides that a distributor has the obligation to pick up beverage containers of any kind and size in which a particular brand of beverage is sold even if the distributor does not sell all sizes and kinds of beverage containers of that brand.

SUMMARY

The existing lien laws do not specifically grant land surveyors the same rights as are granted to architects and engineers, leaving surveyors vulnerable to nonpayment for services. This bill provides surveyors with the same statutory protection afforded other service professionals.
