SUMMARY

This bill accomplishes the following.

1. The bill correctly defines what is issued to chiropractors as a "license," not a "certificate," and changes similar references throughout the laws on chiropractors.
2. The bill makes practicing chiropractic without a license a Class E crime, consistent with the other laws relating to medical practice.
3. The bill increases the size of the Board of Chiropractic Examination and Registration by one public member and reduces the term of membership of new members to 3 years.
4. The bill amends current law concerning meetings, to allow the board more flexibility and corrects a number of gender-specific terms in the law.
5. The bill clarifies the notice provisions regarding complaint resolutions.
6. The bill changes the license renewal cycle to 2 years from one year in order to reduce the administrative work involved in processing.
7. The bill stipulates that application fees are not refundable.
8. The bill gives the board a new fee cap of \$300 for a biennial license.
9. The bill adds to the law language consistent with how renewals are processed by most state licensure boards. This process creates a 90-day grace period for licensees to renew by only paying a late fee and gives the board discretion concerning appropriate penalties and requirements for individuals requesting renewal more than 90 days after the expiration of their licenses.
