SUMMARY

The original resolve established the Commission to Study the Need for a Technical College in York County. The commission was required to submit its report to the Second Regular Session of the 115th Legislature no later than November 1, 1991.

Committee Amendment "A" (H-528) changed the composition of the Commission by reducing the number of Senators from 2 to one and by reducing the number of members from the House of Representatives from 2 to one. It also stipulated that 2 tradespeople will be appointed to the commission. The amendment adds a duty requiring the commission to assess the needs of people who have been traditionally underserved, including women, minorities and persons with disabilities. It adds York County as a possible commission meeting site and makes other minor changes to the commission's powers.

Senate Amendment "A" (S-374) deleted the request for staff assistance, reimbursement for expenses of commission members and the appropriation. It added a provision prohibiting expenditures from the General Fund and permitted the Legislative Council to administer outside funds acquired for the conduct of the study. The amendment also added an allocation and a fiscal note to the resolve.

SUMMARY

This bill would have granted the Bureau of Public Improvements the limited discretion to decrease Percent for Art Program funding requirements if the art would be unsuited for or unappreciated at a public construction or if the funds were necessary, because of an underallocation of funds or cost overruns, to purchase items fundamental to the purposes of a public building.
