Catalytic converters would have remained subject to inspection standards promulgated by the Chief of the State Police pursuant to the Maine Revised Statutes, Title 29, §2503, sub-§1.

This bill also would have allowed dealers to demonstrate and use new motor vehicles that have not been previously registered or titled without requiring inspection stickers. This would have applied only to new vehicles and would have avoided the process of changing inspection stickers on new vehicles that remain in inventory for an extended period of time. This would not have changed inspection law requirements for new vehicles when they are sold and titled.

SUMMARY

This bill makes several changes to the motor vehicle laws. The bill enacts a new provision allowing municipal agents who are authorized to process a variety of permits to collect a service fee of \$1 in addition to the amounts charged for each of these transactions. The bill empowers the Secretary of State to revoke with due cause the appointment of municipal agents.

The bill amends a variety of plate laws including hire class license plates, initial plates for taxicabs, disabled veteran registration plates, vehicle dealer's service plates and dealer wrecker plates. The bill also clarifies when the next new plate issue begins.

The bill amends a variety of laws relating to licenses, including the validity period for commercial vehicle operation of valid Class 1, 2 and 3 licenses and licenses endorsed for operation of school buses. The bill amended the waiting period for special restricted licenses for 15 year olds and the fee of a commercial driver's license. It also allows the Secretary of State to suspend the license of any licensed dealer for failure to have an established place of business and it amends the definition of unlawful use of a license. The bill clarifies the work license provision of the habitual offender.

The bill also amends several insurance related provision including the definition of a repeat operating-under-the-influence offender and the provision that allows vehicles to be insured by foreign insurance carriers. The bill also states that the insurance required for vehicles used for hire or as school buses or in the transportation of students must be provided by a company authorized by the Superintendent of Insurance.
