OTP-AM

AMENDMENTS ADOPTED
S-601

SUMMARY

The purpose of this bill is to remove the requirement that local code enforcement officers be responsible for enforcing laws regulating the practice of architecture. It also amends the law dealing with the type of building, alteration, renovation or remodeling work which require plans prepared by an architect. Currently, 1 and 2-family dwellings, farm buildings, and alterations that do not affect a building's structure and do not require a building permit are exempted. This bill extends the dwelling exemption to 4 families and exempts alterations whose value is less than 15% of the value of the building or \$50,000, whichever is the lesser amount or that do not require a permit. (Through a drafting error the bill did not actually accomplish its intent relative to these exemptions.)

Committee Amendment "A" accomplishes the following:

1. It expands the paragraph of the law that exempts engineers in the practice of their profession from the need for an architect's license.
2. It eliminates a provision of the bill which exempted dwellings for 4 or fewer families from the need for an architect. Current law exempts dwellings for 2 or fewer families. The amendment adds the word 'detached' in order to help define the type of dwelling or buildings being exempted.
3. It corrects a technical error regarding an exception to the need for an architect's license for remodeling, which had resulted in the obvious intent of the bill being reversed.
4. It exempts from the need for an architect's license buildings whose principal purpose is not human occupancy, single story buildings of less than 1,000 square feet, and pre-engineered manufactured buildings.

Senate Amendment "A" (S-729) to Committee Amendment "A" eliminates from the committee amendment the exemption from the need for an architect for pre-engineered manufactured buildings.
