SUMMARY

This bill would have prohibited the Maine Land Use Regulation Commission from restricting access to licensed landfills within its jurisdiction. The bill included provisions that would have explicitly provided for a license extension for the Down East Landfill until March 12, 1993, the date of submission of a site closure plan under the administrative order of consent regarding the same facility adopted by the Board of Environmental Protection on January 8, 1992.

SUMMARY

This bill allows the state to prosecute the owner of a registered vehicle involved in the illegal discharge of sewage, garbage or other pollutants into inland or coastal waters if the driver of the vehicle can not be identified. This bill is modeled on legislation enacted in the First Regular Session of the 115th Legislature that establishes a registered vehicle owner's liability for that vehicle illegally passing a school bus.

Committee amendment "A" (H-962) clarifies that the owner is subject to the general penalty provisions of Title 38.

Senate amendment "A" (S-766) clarifies that the bill does not impose a mandate on municipal or county governments.

SUMMARY

This bill provides for the certification of employees of the Maine Land Use Regulation Commission to utilize Court Rule 80K proceedings in the District Court involving alleged land use violations. Under current law, if voluntary settlement discussions fail, the only recourse currently available to the commission is to have the Attorney General's office file a law suit in the Superior Court. This bill allows certified employees of the commission to process minor violations in District Court without requiring the appearance of an attorney, similar to small claims proceedings.

A committee amendment (H-954) adds a fiscal note to the bill.
