SUMMARY

This resolve directs the Department of Environmental Protection to issue and implement a group contract for the removal of residential underground oil tanks for certain housing developments in the Bangor area. It also ensures that people are not subject to enforcement action because they have waited for the Department to develop this contract.

The committee amendment (H-1003) requires that underground oil storage tanks that are removed pursuant to a contract developed by the Department be registered. The amendment also adds a fiscal note to the resolve.
