ONE HUNDRED AND SIXTEENTH LEGISLATURE SECOND REGULAR SESSION

JOINT STANDING COMMITTEE BILL SUMMARIES

MAY 1994

This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees and Joint Select Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries.

The committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number, together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various types of final action are abbreviated as follows:

SUMMARY

This bill extends the medical utilization review requirements to health maintenance organizations and preferred provider organizations.

This bill requires entities applying for licenses to perform medical utilization reviews, under which there are prospective evaluations of hospitalization, services or care, continued stay reviews, discharge planning and concurrent reviews, to submit utilization review plans with their applications in accordance with the Maine Revised Statutes, Titles 24 and 24—A. The bill prohibits any connection between the pay of the entity performing the review and that entity's record of determining need for treatment or admission. It prohibits utilization review entities, their employees and paid advisors from establishing, operating or being affiliated with their own substance abuse treatment facilities or training programs.

The bill requires that the utilization review plans contain provisions for emergency and nonemergency treatment and admissions, including patient placement criteria published by the American Society of Addiction Medicine and emergency treatment and admission if the treating provider determines the treatment or admission to be medically necessary and notifies the utilization review entity within 24 hours. If the admission is for medical detoxification or treatment, there is a presumption of medical necessity of the admission. The bill specifies requirements of the medical utilization review program, including details on decision procedures, appeal procedures, identification of personnel, availability by telephone, response obligations, notification procedures and compliance with state and federal law.

The bill requires a report from the Superintendent of Insurance to the Joint Standing Committee on Banking and Insurance on or before January 1, 1994 and January 1st of each even-numbered year thereafter on the performance of entities authorized to perform utilization reviews under Titles 24 and 24-A.

COMMITTEE AMENDMENT "A" (H-943) does the following:

 Requires licensing of entities that do medical utilization reviews for health maintenance organizations and preferred provider organizations;
