This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees and Joint Select Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries.

The committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number (e.g., H-584 or S-222), together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various types of final action are abbreviated as follows:

provisions are moved into the new chapter enacted by the bill and amended to reflect its actual duties.

3. Several clarifying amendments are made to ensure that the legislation is consistent with state and federal law.
4. A statutory section requiring maintenance of the current 10 resource development centers is sunsetted on June 30, 1994, giving the Child Care Advisory Council time to submit its recommendations regarding the number and role of the centers.
5. Membership of the Child Care Advisory Council is revised to reflect the broad representation that currently exists on the Department of Human Services' child care advisory committee. This allows the council to replace the existing committee. Also, the duties of the council are clarified in light of the decision not to create a separate coordination committee.
6. Rather than specifying local officials who may perform fire inspections, the amendment directs the State Fire Marshal to establish standards and certify inspection technicians.
7. A section of the bill requiring the development of an automated child care eligibility and data base system is stricken. These functions are expected to be incorporated into the so-called FAMIS computer system that is being developed by the Department of Human Services.

The amendment also adds a fiscal note to the bill.

SUMMARY

This bill removes the requirement that a person have a prescription or be an authorized user of needles to obtain a hypodermic apparatus. The bill allows a person who is 18 years of age or older to purchase a hypodermic apparatus from an authorized seller. Authorized sellers include pharmacists and manufacturers. Criminal immunity is provided for persons who sell or buy needles in accordance with the provisions of the bill.

Amendment H-388 adds veterinarians and agricultural supply stores to the list of authorized sellers of needles.
