Committee Amendment "A" (H-534) delays the toxicity surcharge by one year, and requires the Commissioner of Environmental Protection to convene a study committee to review alternatives to the surcharge and to review the impact of the federal Clean Air Act on portions of the State that are in attainment of federal ozone standards. The amendment also changes the allocation section to reflect the delay of the surcharge.

House Amendment "B" (H-669) corrects the fiscal note and decreases by 6 cents the fee assessed on #6 fuel oil for payment into the Groundwater Oil Clean-up Fund. This decrease will reduce the transfer of funds to FAME and MSHA for loans and grants to assist in removal of underground oil tanks.

**SUMMARY**

This bill would have made several changes to the laws governing solid waste management.

Committee amendment "A" (H-535) replaced the bill and made the bill an emergency.

The amendment repeals the repealer on the law that exempts facilities that combust mixed paper from the definition of solid waste disposal facilities; repeals the "300-foot law"; repeals the escrow closure account requirements under the Maine Revised Statutes, Title 38, section 1310-P; permits, rather than requires, an adjudicatory public hearing in solid waste disposal facility licensing proceedings; and requires laboratory analyses in support of solid waste facility licenses to be performed by qualified laboratories.

This amendment also eliminates the 5-year term of solid waste facility licenses issued under rules valid on or after May 24, 1989. Rather than being subject to relicensing every 5 years, those licenses remain valid for an indefinite period unless modified, suspended or revoked by the Board of Environmental Protection. The relicensing fee previously paid once every 5 years is replaced with an annual fee equal to 20% of the relicensing fee that would have applied to that facility. The annual fee does not become payable until the time the facility would have been required to be relicensed. A solid waste facility having a license issued before May 24, 1989 must be relicensed one time under those newer rules.
