ONE HUNDRED AND SEVENTEENTH LEGISLATURE FIRST REGULAR SESSION

SUMMARY OF LEGISLATION BEFORE THE JOINT STANDING COMMITTEES

AUGUST 1995

This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, <u>History and Final Disposition of Legislative Documents</u>, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number, together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various categories of final action are abbreviated as follows:

SUMMARY

This bill would have provided the Maine Turnpike Authority with greater flexibility in setting its toll rates, including commuter toll rates, in order to develop demand management, air quality promotion and other strategies envisioned in the Sensible Transportation Policy Act.

COMMITTEE AMENDMENT "A" (S-85) replaces the original bill. It provides the Maine Turnpike Authority with greater flexibility in setting its commuter discount rates for a period of 2 years. It requires the authority to report back to the joint standing committee of the Legislature having jurisdiction over transportation matters on congestion pricing studies conducted during that period. This amendment also adds an emergency preamble and an emergency clause to the bill.

HOUSE AMENDMENT "C" TO COMMITTEE AMENDMENT "A" (H-654) prohibits the Maine Turnpike Authority from imposing variable surcharges based on the time of day. It also clarifies that the evaluation of congestion pricing as a reasonable transportation alternative to widening the Maine Turnpike on a projected basis without actual implementation of congestive pricing meets the criteria of the Sensible Transportation Policy Act.
