This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. The bill allows testing by insurers for only those life insurance policies with a value greater than \$100,000. It also makes clear that a guardian may not consent or refuse to consent to testing for a ward unless that guardian has the authority to consent or withhold consent for medical treatment for the ward.

The bill requires that face-to-face post-test counseling be offered. It also increases the sanctions for releasing test results in violation of the HIV testing laws.

COMMITTEE AMENDMENT "A" (S-269) is the majority report of the committee. It revises the definition of "bona fide occupational exposure" to match the federal definition. It removes the provision concerning HIV testing on donated body parts. It removes the provision that would have amended the disclosure provisions for other agencies. It removes the provisions that would have amended informed consent for insurance. It removes the provision on guardianship. It clarifies the provision on reporting concerning occupational exposure. It adds a waiver provision for a person who declines pretest and post-test counseling. It deletes two proposed additions to the pretest counseling discussion. It clarifies a provision in the post-test counseling section. It makes several changes that are language changes. It deletes the portion of the bill that would have increased the penalties for violating the provisions of the Maine Revised Statutes, Title 22, chapter 501, on HIV testing.
