This bill also proposed to make uniform the tax status of all water districts in the State. Currently, many water districts have specific provisions in their charters regarding the tax status of the utilities' properties. In nearly all cases district property is to some extent tax exempt. However, there are some variations in the extent of the tax exemptions. The general law of the State, Title 36, section 651, provides a uniform tax-exemption scheme for water district properties. This bill would have made all water district properties tax exempt as provided under the general law and repeal all inconsistent charter provisions.

COMMITTEE AMENDMENT "A" (H-228) strikes and replaces the bill. This amendment also strikes and replaces the title of the bill, adds a mandate preamble and an emergency preamble and emergency clause to the bill and adds a fiscal note.

The amendment removes Spectacle pond and Beech Hill pond from the list of ponds from which the Bangor Water District may take water. The amendment changes the tax status of the district. Currently all of the district's property is tax exempt. Under this amendment, the district's property within the territory of the district remains tax exempt. Outside the territory of the district, under this amendment, only pipes, hydrants, treatment facilities and other fixtures are tax exempt. All other property of the district outside the territory of the district is subject to taxation.

SENATE AMENDMENT "A" TO COMMITTEE AMENDMENT "A" (S-171) replaces the fiscal note in the committee amendment.

SUMMARY

This bill proposed to establish a process to result in divestiture by electric utility companies of generation assets.

The bill proposed that:

1. Electric utilities submit to the Public Utilities Commission by June 1, 1996 a detailed plan for divestiture;
2. The commission complete a review of the plans by June 1, 1997;
3. By January 1, 1998, the commission hold hearings on the plans and submit to the Legislature its report on divestiture. The report would have included a plan for complete divestiture by January 1, 2001; and
4. The Joint Standing Committee on Utilities be authorized to report out a bill to the Second Regular Session of the 118th Legislature in 1998 to achieve divestiture.
