This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. 5581LHS

This bill proposed to eliminate the 48-hour written notice requirement and to substitute a 48-hour oral notice and 5-day written notice requirement, would have required the commissioner to respond to a licensee's request for exemption under this provision within 30 days and in sufficient detail to provide the licensee with the basis for the commissioner's decision, and would have specified the process for appealing commissioner decisions on this issue.

COMMITTEE AMENDMENT "A" (H-278) replaces the bill. It eliminates the current statutory requirement that a licensee file a written report with the department within 48 hours of an exceedance, and instead allows a licensee to give oral notice to the department of any start-up, shutdown or malfunction violations within 48 hours and to follow up with a written report on a quarterly basis. The quarterly report supersedes the 5-day written report that is currently required as a standard condition in air emission licenses, according to department regulations.

AMENDMENTS ADOPTED
H-106

SUMMARY

This bill excludes a former federal military base from the definition of "development" in the site location of development laws except that development proposed on that base after its transfer to a development authority is not excluded.

COMMITTEE AMENDMENT "A" (H-106) strikes and replaces the bill. The amendment preserves the intent of the bill to exclude from review under the site location of development laws development that exists on a former military base when it is acquired by a state or local government authority. The amendment redrafts the bill to clarify the exemption and to ensure that only proposals for future development on these former military bases are subject to review under the site location of development laws.

AMENDMENTS ADOPTED
H-121

SUMMARY

This bill proposed to prohibit the Land for Maine's Future Board from acquiring land obtained by the use of eminent domain without the prior approval of 2/3 of the Legislature. Eminent domain would have been permitted to clear title to the land, but only with the consent of the landowner.

COMMITTEE AMENDMENT "A" (H-121), which was the majority report, replaces the bill. Under current law, the Land for Maine's Future Board may expend funds to take land by eminent domain if the expenditure or the acquisition has been approved by the Legislature or the owner of the land consents.

Under this amendment, the board may expend funds to take land by eminent domain only if the acquisition is approved by the Legislature or the owner of the land consents.
