SUMMARY

This is an emergency bill that amends mental illness benefits provisions of group health insurance laws. The bill requires that all group health insurance policies in the State provide coverage for certain mental illnesses at the same level as coverage for medical treatment for physical illnesses.

The bill also requires insurers who offer individual insurance policies and health maintenance organizations to provide the same benefits for medical treatment for mental illness as for all group health insurance policies.

COMMITTEE AMENDMENT "A" (H-521) replaces the original bill and removes the emergency preamble and emergency clause. The amendment requires parity for the treatment of biologically-based mental illnesses for all group policies and contracts covering employees of employers with more than twenty employees issued by nonprofit hospital and medical service organizations, commercial insurers and health maintenance organizations. The amendment also requires that nonprofit and commercial insurers and health maintenance organizations offer coverage for biologically-based mental illnesses to the same extent as physical illnesses in individual and small group policies. Childhood schizophrenia and psychotic depression are removed from the list of biologically-based mental illnesses. The diagnosis of a biologically-based mental illness must be made by a licensed allopathic or osteopathic physician. The amendment provides an effective date of July 1, 1996 and adds a fiscal note.

HOUSE AMENDMENT "A" (H-540) to COMMITTEE AMENDMENT "A" expands the diagnostic language in the committee amendment to include licensed psychologists and psychiatrists. The amendment also adds a fiscal note. House Amendment "A" was not adopted.

LD 600 An Act to Clarify Credit Union Common Bond Requirements PUBLIC 101

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
KIEFFER OTP-AM S-71

SUMMARY

This bill requires the Superintendent of Insurance to review the supporting evidence provided by a credit union proving there is in fact a common bond as required in the Maine Revised Statutes, Title 9-B, section 814 when originally defining its field of membership and when seeking to expand that field of membership. The bill also clarifies that the Legislature did not intend for multiple fields of membership for credit unions and requires the Bureau of Banking to examine state credit unions for compliance with their field of membership requirement.

COMMITTEE AMENDMENT "A" (S-71) replaces the original bill. The amendment clarifies that a community-based field of membership includes those persons who live or work in a well-defined neighborhood, community or rural district and establishes parity between state and federally-chartered credit unions with respect to field of membership requirements. The amendment also requires the Superintendent of Banking to notify interested parties when a credit union proposes a change in field of membership. The amendment adds a fiscal note to the bill as well.
