This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number, together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various categories of final action are abbreviated as follows:

SUMMARY

This bill would have required that before an abortion may be performed on a pregnant minor, notification be provided to one parent or, when the minor is in fear of physical, sexual or emotional abuse from a parent, to a specified adult relative. The bill would have provided alternative procedures whereby the minor may seek court approval for the proposed abortion and would have established the procedures for judicial review and appeals. This bill is modeled on the provisions of Ohio law.

COMMITTEE AMENDMENT "A" (H-475) is the Minority Report. It would have replaced the bill. It would have required that either a parent be notified and an adult accompany the minor to the abortion; that a counselor accompany the minor to the abortion if the pregnant minor alleges abuse or neglect such that notifying the parent is not in the minor's best interest; or the District Court or Probate Court authorizes the abortion without parental consent. Any alleged abuse or neglect would be required to be reported to the Department of Human Services.

COMMITTEE REPORT**AMENDMENTS ADOPTED****SUMMARY**

This bill proposes to modify the principle of joint liability in medical negligence cases. Under this bill, multiple defendants in these cases would remain jointly liable for all damages awarded for economic loss and would remain jointly liable for noneconomic loss unless a defendant is found to be less than 25% at fault as compared with other defendants. For that defendant, liability would be several with regard to only noneconomic damages. Thus, that defendant would be responsible only for the defendant's portion of the noneconomic damages, but would remain jointly liable for all economic damages.

AMENDMENTS ADOPTED**SUMMARY**

This bill would have continued the process begun by Public Law 1989, chapter 843, section 3. That law charged the Bureau of Insurance with the task of reviewing the 1989 study by the Minnesota Department of Commerce relating to closed medical malpractice liability claims in Minnesota, North Dakota and South Dakota. The purpose of the review was to determine what closed claims information must be collected in Maine in order to provide a data base to evaluate the effects of past law changes and the likely effects of proposals to change laws relating to tort law and insurance regulation. The Bureau of Insurance was then to determine whether or not the necessary information could be obtained through medical malpractice rate filings made during 1990. If that information were not available, the bureau was then to seek out an appropriate, cost-effective manner of collecting the information. The bureau then was to report its determinations and recommendations to the Joint Standing Committee on Banking and Insurance and the Executive Director of the Legislative Council by January 1, 1991. This bill would have finished this process by charging the Bureau of Insurance with the task of compiling updated information and writing a report that estimates the actual savings of tort reform in the State as a percentage of total health spending.
