This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. injections and agents for the treatment of diseases that affect the entire system. The bill would have allowed the use of any pharmaceutical agent, including Schedule III, IV and V controlled substances, for the treatment of any eye condition including glaucoma.

COMMITTEE AMENDMENT "A" (H-534) is the Majority Report. It prohibits the use of tissue-altering lasers and invasive surgery.

This amendment submits to an optometry study panel the issue of extending the types of drugs that optometrists can use, excluding those for the treatment of glaucoma. It allows the treatment of glaucoma beginning October 1, 1996 and submits to the study panel the issue of the qualifications required for an optometrist to be able to treat glaucoma. The Committee is allowed to submit legislation based on the results of this study.

COMMITTEE AMENDMENT "B" (H-535) is the Minority Report. It prohibits the use of tissue-altering lasers and invasive surgery.

This amendment allows the use of pain relievers for 72 hours after which there must be consultation with or referral to a physician skilled in the treatment of the eye. The amendment removes from the bill the allowance for optometrists to use other oral medications for conditions other than glaucoma.

The amendment submits to the study panel the issue of whether optometrists possess the education and training necessary to treat glaucoma.

HOUSE AMENDMENT "A" TO COMMITTEE AMENDMENT "A" (H-558) makes it clear that this bill does not affect the current permission of optometrists to use topical drugs and that the study panel is to confine itself to the issue of oral medications.

SENATE AMENDMENT "A" TO COMMITTEE AMENDMENT "A" (S-333) requires the Joint Standing Committee on Business and Economic Development to submit legislation on the qualifications required for the treatment of glaucoma and requires that legislation to have an effective date of October 1, 1996. (Not adopted)

SENATE AMENDMENT "B" TO COMMITTEE AMENDMENT "A" (S-335) requires the Joint Standing Committee on Business and Economic Development to submit legislation on the qualifications required for the treatment of glaucoma and requires that legislation to have an effective date of October 1, 1996. The amendment also places effective dates on the provisions affecting the Maine Revised Statutes, Title 32, section 2411, subsection 3 and section 2417, subsection 6 contingent upon the passage of legislation required of the Committee. (Not adopted)

SENATE AMENDMENT "C" TO COMMITTEE AMENDMENT "A" (S-357) requires the Joint Standing Committee on Business and Economic Development to submit legislation on the qualifications required for the treatment of glaucoma and requires that legislation to have an effective date of October 1, 1996. The amendment requires the Board of Optometry not to certify an optometrist to treat glaucoma unless training and education requirements as approved by the Legislature are met.
