This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, <u>History and Final Disposition of Legislative Documents</u>, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. The bill would have appropriated \$1,400,000 to the Department of Conservation to fund the rebuilding of the Churchill Dam on the Allagash Wilderness Waterway. New Brunswick Power operates several dams on the St. John River below the Churchill Dam and has in prior years shown an interest in the use of Churchill Lake for water storage for release to downstream hydroelectric facilities. The bill would have required the Commissioner of Conservation to report to the Legislature by January 1, 1996 on actions the department has taken to enter into agreements with New Brunswick Power and the potential revenues associated with any of those agreements.
