This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number, together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. The trap limits proposed in the bill would have been enforced through a requirement that there be affixed to each trap a trap tag purchased from the Department of Marine Resources. A licensee would have been authorized to purchase a trap tag for each trap that would have been used by that person plus a sufficient number of additional trap tags to account for traps that may be lost during the year. A tiered schedule of fees would have been enacted for trap tags.

The bill would have also required that the Commissioner of Marine Resources use all funds received from the sale of trap tags and sternman's licenses for enforcement.

LD 912 **An Act to Make Owners Responsible for Their Abandoned Lobster Traps** ONTP

SPONSOR(S) LAWRENCE	COMMITTEE REPORT ONTP	AMENDMENTS ADOPTED
-------------------------------	---------------------------------	---------------------------

SUMMARY

This bill would have defined an "abandoned lobster trap" as a trap left for more than 90 days on another person's property without that person's permission. The owner of the abandoned trap would have been liable for the costs incurred by the property owner to remove the trap if the trap owner fails, after written notification, to remove the trap prior to the time it becomes an abandoned trap.

LD 918 **An Act to Ensure a Sustainable Urchin Fishery in the State** PUBLIC 392

SPONSOR(S) RAND	COMMITTEE REPORT OTP-AM MAJ OTP-AM MIN	AMENDMENTS ADOPTED H-582 LOOK S-293

SUMMARY

This bill would have imposed a temporary surcharge on a sea urchin processor's supplemental permit.

In addition, the bill would have established a total urchin roe yield standard for the industry in order to preserve a sustainable resource of immature sea urchins and instituted a log book mechanism by which the Department of Marine Resources could enforce the yield standard and develop a data base of information documenting the amount of urchins harvested, from where, and by whom and report back to the Legislature their findings along with a report on the Sea Urchin Research Fund.

COMMITTEE AMENDMENT "A" (S-293) replaces the bill and makes the following additions and changes to the sea urchin laws.

1. It changes the dates during which both sea urchin zones will be closed from May 15th to August 15th to May 1st to August 31st.
2. It would have enacted a Sunday and Wednesday closure of the urchin fishery during the months of September, October, March and April. (House Amendment "A" struck this provision from Committee Amendment "A".)
3. It changes the closing dates in Zone 1 from April 1st - August 15th to April 1st - August 31st.
4. It changes the closure dates in Zone 2 from May 15th - October 1st to May 1st - October 1st.
