This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number, together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various categories of final action are abbreviated as follows:

COMMITTEE AMENDMENT "A" (S-124) replaces section 1 of the bill and adds a new section. It authorizes the Director of the Maine Forest Service to use the proceeds from the sale or lease of any bureau property, except for state forests and natural areas, to upgrade existing structures owned by the Division of Forest Fire Control, to consolidate operations of the division through the improvement, repair, replacement, purchase or construction of structures and to purchase land upon which to construct structures. It also requires that any land purchased and any structures purchased or constructed be held in the division's name.

The amendment also changes a reference to the committee to which the Director of the Maine Forest Service must report before offering for sale surplus property. The reference is changed from the joint standing committee of the Legislature having jurisdiction over natural resources to the joint standing committee of the Legislature having jurisdiction over forest resources.

The amendment also eliminates obsolete references to the sale of property at the state nursery and to the transfer of the low-level radioactive waste site on the state nursery property.

The amendment also adds a fiscal note to the bill.

LD 935 **An Act to Amend the Sheltering Requirements for Dogs and to Provide Funding for the Spaying and Neutering of Cats and Dogs** ONTP

SPONSOR(S)	COMMITTEE REPORT	AMENDMENTS ADOPTED
LOOK	ONTP	

SUMMARY

The bill would have established the Spaying and Neutering Program to provide a discount to low-income owners of dogs and cats who wish to have their pets sterilized. The program would have been funded by a portion of the revenue raised by licensing dogs.

The bill would have also amended current animal welfare laws to specify sheltering and tethering requirements for dogs. The new requirements would have been identical to rules issued by the Department of Agriculture, Food and Rural Resources for kennels.

LD 941 **An Act to Clarify the Board of Pesticides Control Authority Regarding Restricted Use Pesticides and Groundwater Contamination** ONTP

SPONSOR(S)	COMMITTEE REPORT	AMENDMENTS ADOPTED
SHIAH	ONTP MAJ	
	OTP-AM MIN	

SUMMARY

The bill would have amended the definition of "restricted use pesticide" to conform to the Maine Revised Statutes, Title 22, section 1471-C, subsection 23, which provides that a pesticide may be classified for restricted use either by the federal Environmental Protection Agency or by state authorities. This bill would have clarified that the appropriate state authority for pesticide control is the Department of Agriculture, Food and Rural Resources, State Board of Pesticides Control. This bill would have also required the State Board of Pesticides Control to adopt rules minimizing pesticide contamination in groundwater.
