The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

SUMMARY

The bill reflects the 1994 recommendations of the Maine Sardine Council's export committee. This bill amends the Maine sardine laws to enhance the export of higher quality sardines, and other canned herring products, by clarifying certain provisions.

COMMITTEE AMENDMENT "A" (S-253) deletes an obsolete reference to the Commissioner of Agriculture, Food and Rural Resources from the laws concerning trademarks used by the Maine Sardine Council.

The amendment also adds a definition of the term "other canned herring product" to the sardine laws. It also reduces the excise tax on herring products by 5¢.

The amendment makes a technical change in the sardine laws to correct an error in reference.

The amendment also adds a fiscal note to the bill.

HOUSE AMENDMENT "A" (H-494) includes the reduced tax rates intended by Committee Amendment "A" in the provision concerning the reports and payments of the tax.

SUMMARY

Under current law it is illegal to possess shellfish that did not come from a certified source, growing area or dealer. Long-liners use surf clams as bait and, to legally obtain them, must buy from certified dealers. Shellfish used as bait do not have to be fit for human consumption; nevertheless, long-liners must pay the price for shellfish that meet retail market standards even though their intended use is as bait. This bill would have allowed the Department of Marine Resources to adopt rules by which long-liners could obtain and use product that does not have to meet sanitation standards.

COMMITTEE AMENDMENT "A" (S-222) replaces the bill and permits the harvesting of marine mollusks from areas closed to shellfishing, if the mollusks are used for bait or other uses not meant for human consumption. The harvesting must be in accordance with rules adopted by the Commissioner of Marine Resources. Those rules may not jeopardize certification of Maine's shellfish under the National Shellfish Sanitation Program. The amendment also adds a fiscal note to the bill.
