AMENDMENTS ADOPTED

SUMMARY

This bill, modeled on Vermont legislation, is designed to consolidate health care planning, oversight and regulation in Maine with the goal of providing cost containment within 2 1/2 years.

The bill includes the following significant components:

1. It establishes the Maine Health Care Authority, governed by a 3-person board, to serve as an umbrella agency for health care planning including oversight of the Maine Health Care Finance Commission and the Certificate of Need Advisory Committee. The authority's duties include:
 - A. Establishing a unified health care budget in fiscal year 1997-98 that establishes the total amount of money to be spent annually for health care services provided in the State;
 - B. Adopting a statewide health resource management plan;
 - C. Administering the certificate of need program; and
 - D. Developing a common benefit package that, on January 1, 1996, becomes the minimum standard health insurance policy offered in the State;
2. It establishes a Health Insurance Trust Fund to implement the common benefits package;
3. It creates the State Health Coordinating Council, consisting of 31 members and develops the health resource management plan;
4. It requires annual approval of each hospital's budget;
5. It repeals the existing medical malpractice mediation provisions, replacing them with a medical malpractice compensation system administered by the Medical Compensation Board, with appeal and de novo review in Superior Court; and
6. It establishes requirements for the issuance of small group, fewer than 50 employees, and nongroup health benefit plans.
7. It also increases the cigarette tax by 5¢ per pack beginning December 1, 1995. Proceeds from the cigarette tax increase are paid to the Health Insurance Trust Fund.
