SUMMARY

This bill implements the following changes recommended by the Finance Authority of Maine's study of venture capital "A Study of the Availability and Sources of Venture Capital in Maine," dated March 15, 1995.

1. It creates the Maine Economic Development Venture Capital Revolving Investment Fund within the Maine Economic Development Venture Capital Revolving Investment Program, designed so that if direct appropriations are ever made available, the authority would be empowered to invest them in one or more private professionally managed venture capital funds on the basis that the managers of the private funds will make real efforts to reinvest the money in the State.
2. It creates a new form of venture capital tax credit program that could be applied to investments in private venture capital funds that meet eligibility standards.
3. It amends the Maine Seed Capital Tax Credit Program by allowing eligible investors and companies to qualify for "2nd round" credits and companies that have shown significant growth and need to move to the next stage of development.
4. It increases available tax credits for the Maine Seed Capital Tax Credit Program by \$1,000,000 in each of calendar years 1997, 1998, 1999, 2000 and 2001, and provides additional tax credits of \$1,000,000 for investments in private venture capital funds.
5. It provides for the exclusion of long-term capital gains from the sale of investments receiving a tax credit certificate under the Maine Seed Capital Tax Credit Program from state income tax.

COMMITTEE AMENDMENT "A" (H-272) adds an appropriation section and a fiscal note to the bill.

SENATE AMENDMENT "A" to COMMITTEE AMENDMENT "A" (H-920) strikes from state income tax the provisions for the exclusion of long-term capital gains from the sale of investments receiving a tax credit certificate under the Maine Seed Capital Tax Credit Program from state income tax.
