THE JOINT STANDING COMMITTEES**

AUGUST 1995

This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. All adopted amendments are listed, by paper number, together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various categories of final action are abbreviated as follows:

LD 1291 An Act to Amend the Income Eligibility Criteria of the Small Community Wastewater Program

COMMITTEE REPORT
OTP

AMENDMENTS ADOPTED

SUMMARY

Under the small community wastewater program, the state pays 90% of the cost of projects to correct certain polluting septic or other wastewater treatment systems serving single-family homes, 50% for projects serving commercial establishments and 25% for projects serving seasonal dwellings. Current law limits eligibility for a state grant to homeowners with adjusted gross income not exceeding \$30,000 and to businesses with gross profit not exceeding \$30,000. This bill provides for eligibility for single-family homes and seasonal dwellings based on the owner's taxable income rather than adjusted gross income. It provides a sliding scale for determining the state's share of the cost of projects serving single-family homes, providing for 100% state coverage of costs at taxable income below \$5,000, and no state share for taxable income above \$40,000. The bill also provides for a smaller state payment for projects serving commercial facilities for businesses with gross profit above \$30,000 but not above \$40,000.

COMMITTEE REPORT

AMENDMENTS ADOPTED

SUMMARY

This bill would have allowed the Department of Environmental Protection, for good cause shown, to waive the requirement that an applicant for coverage of clean-up costs and eligible 3rd-party damage costs by the Ground Water Oil Clean-up Fund request coverage within 180 days of reporting a discharge.

See LD 1387.

LD 1311 An Act Regarding the Motor Vehicle Emission Inspection Program

ONTP

SPONSOR(S)
ADAMS

COMMITTEE REPORT
ONTP

AMENDMENTS ADOPTED

SUMMARY

This bill would have repealed that part of the motor vehicle emission law that exempts vehicles over 10,000 pounds from the test. The bill would have also directed the Governor to request a federal waiver to lower the \$450 repair cost limit and directed the Department of Environmental Protection to establish a program for testing motor vehicles that operate on diesel fuel.
