This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries. The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

In this document, the committee report or reports, the prime sponsor for each bill and the lead co-sponsor in each house if one has been designated are listed below each bill title. This bill, modelled after similar provisions in Minnesota, would have required any person who purchased or received commodities weighed before or after loading to keep a written record for at least 30 days containing information about the shipment, including the weight of the shipment, identification of the shipper and the number of axles and registration of the shipping vehicle. Under this bill, the records would have been open to inspection and copying by the State Police and could have been used as relevant evidence of maximum vehicle weight limits established under the motor vehicle laws.
