***Summary Of Legislation Before The Joint Standing Committees
June 1996***

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills.

Enacted law summary

Public Law 1995, chapter 666 amends the current submerged lands law in the following manner:

1. It requires interest earned from submerged lands income be credited to the Submerged Lands Fund;
2. It reduces the annual lease rent paid for upland uses from 10% to 2% of the municipally assessed value per square foot of adjacent upland;
3. It authorizes the renewal of a lease at any time, provided the terms of an existing lease are met at the time of renewal application. If a lease does not conform with all applicable laws, regulations and public trust principles in effect at the time of renewal, the lease must be amended to reflect current law, rules and principles;
4. It raises the minimum annual rent for a submerged lands lease from \$75 to \$100;
5. It establishes a maximum rent of \$1,200 for any lease;
6. It raises the registration fee for easements from \$25 every 5 years to \$50 every 5 years;
7. It extends, to December 31, 1996, the deadline for the Bureau of Parks and Lands to register all structures that were upon submerged and intertidal lands as of October 1, 1975; and
8. It establishes the Submerged Lands Advisory Board to provide advice and information to the Director of the Bureau of Parks and Lands on the management of submerged lands.

Amendments Adopted

LD 1469 proposed to reenact, with updated language, the Maine Meat Inspection Act repealed in 1980. It would have provided for state inspection and regulation of the slaughter, processing, labeling, sale and transportation of cattle, sheep, swine, goats or horses, mules or other equines in intrastate commerce.

Committee Amendment "A" (H-749) proposed to replace the bill and make it a resolve. It proposed to provide the Department of Agriculture, Food and Rural Resources a \$20,000 General Fund appropriation to research establishment of a state-operated meat inspection program and initiate a pilot project under an inspection process known as "hazard analysis critical control point." Contingent upon the Department of Agriculture, Food and Rural Resources receiving the appropriation, the Commissioner of Agriculture, Food and Rural Resources would have been required to report by March 15, 1997 on the department's progress.

Senate Amendment "A" to Committee Amendment "A" (S-593) proposed to replace Committee Amendment "A". It proposed to require the Commissioner of Agriculture, Food and

Rural Resources to establish a state meat inspection advisory committee and to perform the following tasks: develop for custom meat processors in this State a hazard analysis critical control point manual that complies with United States Department of Agriculture standards; develop legislation to establish a hazard analysis critical control point program for meat inspection in this State; determine the feasibility and criteria for a hazard analysis critical control point pilot project; and negotiate with the United States Department of Agriculture to establish a hazard analysis critical control point pilot project for meat inspection in this State. It proposed to remove from the bill the \$20,000 General Fund appropriation and require the Department of Agriculture, Food and Rural Resources to accomplish the tasks to the extent possible within existing budgeted resources.

Enacted law summary

Resolve 1995, chapter 78 requires the Commissioner of Agriculture, Food and Rural Resources to establish a state meat inspection advisory committee and to perform the following tasks: develop for custom meat processors in this State a hazard analysis critical control point manual that complies with United States Department of Agriculture standards; develop legislation to establish a hazard analysis critical control point program for meat inspection in this State; determine the feasibility and criteria for a hazard analysis critical control point pilot project; and negotiate with the United States Department of Agriculture to establish a hazard analysis critical control point pilot project for meat inspection in this State. The commissioner must report on these tasks by February 1, 1997 to the joint standing committee of the Legislature having jurisdiction over agriculture, conservation and forestry.

Amendments Adopted

LD 1593 proposed to repeal the Animal Welfare Board and transfer the board's responsibilities regarding investigation of pet animal cruelty complaints to the commissioner. Other powers and responsibilities of the board, such as the appointment of intermittent humane agents and the operation of a spaying and neutering fund, would be transferred to the commissioner. The role as well as the membership of the Animal Welfare Advisory Committee would be expanded. The committee would have included one member who is or has been a licensed veterinarian and another member who represents the interest of the public in animal welfare, generally. All committee members would have continued to be appointed by the Governor, but would no longer be subject to legislative review and confirmation.

The bill proposed to make adjustments to Other Special Revenue allocations for the Maine Dairy Promotion Board and provide for the elimination of the Maine Dairy Promotion Board and the Maine Dairy and Nutrition Council. The department would have carried out the board's and council's programs with the assistance and advice of a new Maine Dairy and Nutrition Advisory Council and a Maine Dairy Promotion Advisory Board.
