The publication, History and Final Disposition of Legislative Documents, is helpful in determining to which committee any particular bill was referred.

AMENDMENTS ADOPTED

SUMMARY

This bill would have provided mechanisms by which the State's laws prohibiting the sale to and use of tobacco products by minors can be enforced. The bill would have increased some of the penalties in the current law, would have required the State Police to provide at cost signs for display by retailers of tobacco products notifying the public that the sale of tobacco to minors is prohibited, and would have directed the Chief of the State Police to conduct unannounced inspections in conjunction with municipal chiefs of police and county sheriffs in order to reduce illegal sales of tobacco products to minors.

The bill would have also established statewide uniformity concerning the regulation of tobacco sales, distribution, display and promotion, preempting home rule in these areas. Finally, this bill would have allowed law enforcement officials to enlist persons under 18 years of age to test compliance with the law and would have required that a report on compliance be submitted to the United States Department of Health and Human Services in order to comply with a federal mandate.
