**Summary Of Legislation Before The Joint Standing Committees  
August 1997**

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

***Enacted law summary***

Public Law 1997, chapter 311 creates a new design for the new general issue of registration plates that includes a chickadee, a pine cone and a pine tree tassel. It specifies that the Secretary of State must have the advice of the Joint Standing Committee on Transportation when devising a numbering system for the new general issue of registration plates. It also authorizes the continuation through the 118th Legislature of the Task Force on Production and Issuance of License Plates, which was created by Public Law 1995, chapter 645, Part C, section 15. Members of the task force must continue to serve, except that the two legislative members whose legislative terms have expired must be replaced with new appointments by the President of the Senate and the Speaker of the House. The law charges the task force with continuing its study of the equipment and technology used for the production of license plates and the methods of assigning identifiers to license plates.
