**ONE HUNDRED EIGHTEENTH LEGISLATURE
FIRST REGULAR AND FIRST SPECIAL SESSIONS**

**Summary Of Legislation Before The Joint Standing Committees
August 1997**

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Enacted law summary

Resolve 1997, chapter 23 requires the Department of Economic and Community Development to report to the joint standing committee of the Legislature having jurisdiction over business and economic development matters by October 1, 1997 on the needs of entrepreneurship in the State, microloans, microenterprise and small business needs.

LD 390**An Act Requiring Masonry Work to Comply with State and Local Building and Fire Codes****ONTP**

LD 390 proposed to require that masonry work comply with applicable state and local building and fire codes. The committee acknowledged the safety concerns brought forward by the bill and assigned a subcommittee to address the issue. The subcommittee discussed existing requirements for chimney and fireplace installation and the need for additional state laws versus education on National Fire Protection Association code requirements. Under current law, 25 MRSA §2465, no person may install any vent or solid fuel burning appliance unless in accordance with the National Fire Protection Association Code #211, "The Standards for Chimneys, Fireplaces, Vents and Solid Fuel Burning Appliances." The consensus was that by raising awareness and educating the individuals doing installations promotion of professionalism and accountability of the profession would grow. An agreement was reached that rather than pass a law, a more effective means of addressing this education issue would be to offer a seminar. The seminar would be a joint effort between the Department of Public Safety and the Department of Professional and Financial Regulation with assistance from the State Fire Marshall's Office to be scheduled for the fall of 1997.
