**Summary Of Legislation Before The Joint Standing Committees
August 1997**

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 372

An Act to Require Employees of Public Utilities to Be Licensed When Providing Services Outside the Regulated Activities of the Utility

PUBLIC 119

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
WINSOR	OTP-AM	H-132

LD 372 proposed to modify laws regulating skilled labor that exempt employees of public utilities or other corporations regulated by the Public Utilities Commission, the Federal Communications Commission or the Interstate Commerce Commission from licensing requirements otherwise applicable to electricians, plumbers and oil burner technicians. The bill proposed to make the exemptions apply only to the extent the employee or the corporation is providing a service that is regulated by those agencies. The bill proposed that, when doing work that is not part of the regulated service, the corporation and its employees would not be exempt from the licensing requirements.

Committee Amendment "A" (H-132) proposed to replace the entire bill but to preserve the substance of that portion of the bill that modified the exemption public utilities are currently granted from the licensing requirements for making electrical installations. The amendment proposed to clarify the language of the exemption and remove an obsolete reference to the Interstate Commerce Commission.

Enacted law summary
Public Law 1997, chapter 119 modifies the exemption public utilities and their employees are currently granted from licensing requirements for making electrical installations. It provides that the exemptions apply only to the extent the employee or the utility is providing a regulated service.
