**ONE HUNDRED EIGHTEENTH LEGISLATURE
FIRST REGULAR AND FIRST SPECIAL SESSIONS**

**Summary Of Legislation Before The Joint Standing Committees
August 1997**

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

established a shrimp harvesting license, and it would have established the Shrimp Research Fund, a dedicated fund capitalized through commercial shrimp fishing license revenues.

The bill would have provided that a commercial shellfish harvester not licensed by the State could apply to a town for a municipal license but that a municipal commercial shellfish license could not be issued unless that applicant possessed a state commercial shellfish license.

**PUBLIC 247

SKOGLUND PINGREE	OTP-ND-NT	

LD 436 would have allowed the municipalities of St. George, Cushing South Thomaston, Thomaston and Warren to determine the cost of municipal shellfish licenses. These five municipalities have entered into a regional shellfish management agreement and have formed the St. George River Shellfish Management Committee. The committee unanimously voted “ought to pass, new draft” on an amended version of the bill. This version was printed as LD 1837. LD 1837, which was enacted as Public Law 1997, chapter 247, removes, on a statewide basis, the \$200 cap that a municipality may set for a local resident shellfish license.
