ONE HUNDRED EIGHTEENTH LEGISLATURE
FIRST REGULAR AND FIRST SPECIAL SESSIONS

Summary Of Legislation Before The Joint Standing Committees
August 1997

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

KIEFFER	OTP-AM	S-240

LD 941 proposed giving the Department of Agriculture, Food and Rural Resources authority to develop rules requiring the inspection of all potatoes, including bulk shipments. Currently, only potatoes in 50-pound packages or less are inspected. The bill also proposed raising the bonding levels for potato dealers, brokers and processors; and making information regarding patented potato varieties confidential.

Committee Amendment "A" (S-240) proposed providing for inspection of all consumer packs of potatoes and amending the definition of consumer pack to include all weights of packed potatoes. It proposed correcting a cross-reference, striking a provision in the original bill regarding termination of confidential status for certain records and adding a fiscal note to the bill.

Enacted law summary

Public Law 1997, chapter 388 authorizes the Department of Agriculture, Food and Rural Resources to develop rules requiring the inspection of all potatoes packed in any type of container. It raises the bonding levels for potato dealers, brokers and processors. It makes information kept by the department regarding patented and nonreleased potato varieties confidential.

LD 968 An Act to Require Recommended Silvicultural Stocking Standards CARRIED OVER on Land Ownerships Enrolled under the Tree Growth Tax Laws

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
VOLENIK		

LD 968 proposes requiring land enrolled under Tree Growth Tax Law to meet certain established stocking standards for growing stock remaining on a site after a harvest. It would require the Commissioner of Conservation to adopt major substantive rules to establish the standards. The bill proposes specifying that the standards use basal area as a measure of stocking and that a standard may not be below 60 square feet of basal area per acre. It would provide for the Commissioner of Conservation to grant a variance when compliance with the standards would cause unusual hardship. It would subject a landowner who fails to comply with stocking standards to fines and penalties and that landowner's land would become ineligible for enrollment under Tree Growth.
