Summary Of Legislation Before The Joint Standing Committees
May 1998

We are pleased to provide this summary of bills that were considered by the Joint Standing Committees of the Maine Legislature. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

SPEAR NUTTING	OTP-AM MAJ ONTP MIN	

LD 1676 proposed to authorize the operation of video lottery terminals at harness horse racing tracks and at off-track betting facilities. The Harness Racing Commission would license video gaming terminals and terminal manufacturers, distributors, wholesalers and operators. Forty percent of terminal income, after payback to players, would go to the State for administrative expenses and for distribution through municipal revenue sharing. Other amounts would be distributed to the agricultural fairs, harness horse racing purse supplements, the distributor and operator of the terminals, the Sire Stakes Fund and the Harness Racing Promotional Fund.

Committee Amendment "A" (H-1094) proposed to replace the bill. It would have provided for licensing of video gaming terminals and terminal manufacturers, distributors, wholesalers and operators by the Chief of the State Police, following background investigations of the applicants and their major business partners. The maximum number of terminals allowed would be 250 at a commercial racetrack and 50 at an off-track betting parlor. Terminals would be connected to a computer system operated by the Director of the State Lottery and providing for continuous on-line monitoring of video gaming machine activity. Persons under 18 are not allowed to use the machines. Each game on each machine must return at least 90 percent of wagers to players, calculated on an annual basis.

A single distributor would not have been allowed to own more than 300 machines or 15 percent of the total number of machines in the State, whichever is less. A person could not hold more than one type of license, e.g., a distributor may not also be a licensee or a manufacturer, except that a licensee may hold a distributor license solely
