**Summary Of Legislation Before The Joint Standing Committees
August 1997**

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Committee Report
OTP-AM

Amendments Adopted

LD 1241 proposed to eliminate occupancy-related penalties applied to nursing facilities with 60 or fewer beds in the reimbursement principles and to correct a technical reading of the days awaiting placement provision of the statute. It proposed to eliminate reductions in payment currently used as a means of sanctioning facilities for paperwork errors. It proposed to require that the forms now used to calculate case mix adjustments for payment purposes and the forms used to determine medical eligibility must be combined, so that a single set of forms and protocols is required for both purposes. It proposed to require that nursing facilities perform these assessments in accordance with guidelines by the Department of Human Services. It proposed to require the department to provide a means for facilities to gain access to data concerning quality and efficiency.

Committee Amendment "A" (S-208) proposed to replace the bill. It would have required the Commissioner of Human Services to adopt rules amending the principles of reimbursement for nursing facilities to apply an occupancy adjustment to facilities with 60 or fewer beds when the annual level of occupancy is less than 85% and added an appropriation and a fiscal note.

See also LD 1138, Public Law 1997, chapter 395, Part N-1 and N-2, which contains the 85% adjustment factor provision similar to the Committee Amendment and an appropriation of \$37,245 in FY 1997-98.

See LD 1893, the committee bill on child care regulation, enacted as Public Law 1997, chapter 494.

Amendments Adopted
H-285

LD 1275 proposed to provide that an organization licensed to conduct beano or bingo games may establish a nonsmoking area in a room or outdoor area separate from the area where numbers are called if that room or outdoor

area had a master board, a public address system and an employee of the licensee present at all times during a beano or bingo game.

Committee Amendment "A" (H-285) This amendment proposed to replace the bill. It would allow beano or bingo games to have nonsmoking areas that are visible to the smoking areas and that have public address systems and master boards, electric flashboards or chalkboards and a member of the licensee present. The amendment would add a fiscal note to the bill.

Enacted law summary

Public Law 1997, chapter 232 comprises the provisions of the Committee Amendment. It allows beano and bingo games to establish separate non-smoking areas with public address systems, master boards, electric flashboards or chalkboards and a member of the licensee present.

RAND SAXL M		

LD 1302 proposes to authorize the Department of Human Services to continue Maine's AFDC program, using money from the Temporary Assistance for Needy Families block grant funds. It further establishes that in Maine there will be no time limit on receipt of aid to families with dependent children and that victims of domestic violence who would have difficulty participating in ASPIRE-JOBS are exempt from such participation. This bill also proposes to place in state law the due process and fairness protections that are currently part of the AFDC program, but have been repealed from federal law. This bill was carried over to the Second Regular Session of the 118th Legislature.
