FIRST REGULAR AND FIRST SPECIAL SESSIONS

Summary Of Legislation Before The Joint Standing Committees
August 1997

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

LD 1293 proposed to require the State Planning Office to evaluate the Board of Environmental Protection's rules relating to permit by rule under the natural resources protection laws and to report to the joint standing committee of the Legislature having jurisdiction over natural resources matters during the Second Regular Session of the 118th Legislature on its findings and recommended changes to the permit-by-rule program.

Committee Amendment "A" (S-193), the majority report of the committee, proposed to require the Land and Water Resources Council, in consultation with the Department of Environmental Protection, to evaluate the Board of Environmental Protection's permit-by-rule program, instead of the State Planning Office. The amendment proposed to require the Land and Water Resources Council to consider, in addition to the four issues specified in the resolve, whether the permit-by-rule standards are adequate to ensure no significant impact upon the environment when projects are in compliance with the standards. The amendment proposed to require the Land and Water Resources Council to report its findings by February 1, 1998.

LD 1299 proposed to establish the Council on Environmental Monitoring and Assessment. The council would be directed to devise a mechanism to provide ongoing coordination and communication among existing volunteer water quality monitoring programs and to examine ways to promote the use of environmental data collected by the volunteers.

The Governor established the Council on Environmental Monitoring and Assessment by Executive Order.
