ONE HUNDRED EIGHTEENTH LEGISLATURE FIRST REGULAR AND FIRST SPECIAL SESSIONS

Summary Of Legislation Before The Joint Standing Committees August 1997

We are pleased to provide this summary of bills that were considered by the 15 Joint Standing Committees of the Maine Legislature staffed by this office. The document is a compilation of bill summaries which describe each bill, committee amendments and other relevant amendments, as well as the final action taken on the bill. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized alphabetically by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, <u>History and Final Disposition of Legislative Documents</u>, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

CARRIED OVER	Bill carried over to Second Regular Session
CON RES XXX	
	House & Senate disagree; bill died
DIED IN CONCURRENCEOne	body accepts ONTP report; the other indefinitely postpones the bill
DIED ON ADJOURNMENT	Action incomplete when session ended; bill died

NUTTING	OTP-AM	A	S-324
CAMERON	OTP-AM	В	
	ONTP	C	

LD 1633 proposed to set standards for the discharge of dioxin from bleach kraft pulp mills. It proposed to require these mills to achieve nondetectable levels, defined as under 10 picograms per liter, of 2,3,7,8-tetrachlorodibenzo-p-dioxin inside the mill at the bleach plant by 1998 and nondetectable levels of 2,3,7,8-tetrachlorodibenzo-p-furan by 1999, and to eliminate discharges of dioxin by 2002. The bill proposed to provide that elimination of these discharges is indicated when measurement of fish tissue levels of dioxin downstream from the mill are no higher than those upstream. The bill also proposed to require that the Commissioner of Environmental Protection and the
