We are pleased to provide this summary of bills that were considered by the Joint Standing Committees of the Maine Legislature. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

1. Enter into solid waste disposal agreements with an incinerator facility;
2. Acquire ownership interests in an incinerator facility that serves the members of the association; and
3. Serve as the agent of the members in matters related to the purpose of the association.

The law provides fairly detailed requirements for such associations and is designed to permit the consummation of an arrangement negotiated between certain communities, Penobscot Energy Recovery Company and the Bangor Hydro-Electric Company. Chapter 602 was enacted as an emergency measure effective March 17, 1998.

LD 2018

An Act to Protect Customers of Consumer-owned Utilities

PUBLIC 638

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
PINGREE MURPHY	OTP-AM MAJ ONTP MIN	S-504

LD 2018 proposed to amend the laws governing electric industry restructuring. The bill proposed to provide that the requirement that the Public Utilities Commission choose a standard-offer service provider for all consumers of electricity when retail access begins does not apply to consumer-owned transmission and distribution utilities that purchase capacity and energy through competitive bidding if the cost is no greater than standard-offer service obtained by the commission.

Committee Amendment "A" (S-504), which was the majority report of the Joint Standing Committee on Utilities and Energy, proposed to replace the bill. This amendment proposed to exempt a consumer-owned transmission and distribution utility from the Public Utilities Commission's standard offer competitive bidding process if the consumer-owned transmission and distribution utility purchased a power supply for its territory through a competitive bidding process conducted in accordance with the commission's rules governing the selection and criteria for approval of a standard-offer service provider. This amendment also proposed to provide that such purchases by a consumer-owned transmission and distribution utility may be from a single source and would not be subject to commission approval.

Enacted law summary

Public Law 1997, chapter 638 amends the laws governing electric industry restructuring. The law amends provisions relating to standard-offer service. The law exempts a consumer-owned transmission and distribution utility from the Public Utilities Commission's standard offer competitive bidding process if the consumer-owned transmission and distribution utility purchases a power supply for its territory through a competitive bidding process conducted in accordance with the commission's rules governing the selection and criteria for approval of a standard-offer service provider. The law also provides that such purchases by a consumer-owned transmission and distribution utility may be from a single source and are not subject to commission approval.
