**FIRST REGULAR SESSION**

***Summary Of Legislation Before The Joint Standing and Select Committees***  
***August 1999***

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

OTP-AM

Amendments Adopted  
H-551

LD 407 proposed defining separation zone to allow an exception to the 250 foot minimum width between clearcuts when the area cut is within 250 feet of a property line. The bill also proposed allowing the Bureau of Forestry to exempt or modify through rulemaking the statutory requirements regarding signatures submitted on a harvest notification form. This bill was submitted on behalf of the Department of Conversation.

**Committee Amendment "A" (H-551)** proposed to replace the bill. It proposed changes in certain definitions and notification requirements for implementing the forest practices laws. It proposed requiring a forest management plan for clear-cuts over 20 acres. Currently a management plan is needed for clear-cuts over 35 acres.

***Enacted law summary***

Public Law 1999, chapter 361 reduces the minimum height of softwood trees that are counted when assessing a site after harvesting to determine if the definition of a clear-cut has been met. It requires a forest management plan for clear-cuts over 20 acres. Currently a management plan is needed for clear-cuts over 35 acres. It allows a separation zone to be less than 250 feet in width when a clear-cut is near a property line. It requires a separation zone to be equal to or greater than the clear-cut area. It exempts certain small area harvests from the notification requirement. It removes the requirement for a notarized statement to be submitted with certain notification forms. It allows the harvest notification number to be posted at a harvest site rather than a copy of the notification form.
