ONE HUNDRED NINETEENTH LEGISLATURE
FIRST REGULAR SESSION

Summary Of Legislation Before The Joint Standing and Select Committees
August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

Committee Report
OTP-AM

Amendments Adopted
S-183

LD 593 proposed to extend to fish scales the same exemption from Maine's solid waste laws accorded to waste resulting from agricultural activities, as long as these fish scales are returned to the soils as fertilizers.

Committee Amendment "A" (S-183) proposed to replace the bill, add an emergency preamble and an emergency clause. It proposed to allow a person to use fish scales as a crop nutrient supplement without a license as long as the type of scales and the process for extracting, handling and spreading the scales have received initial review and approval by the Department of Environmental Protection, that the farm using fish scales has developed and implemented a nutrient management plan and that the person supplying the fish scales provides the department with the name of the person receiving the scales, the location where the scales will be used and the quantity of the fish scales shipped within seven days of shipping the scales.

Enacted law summary

Public Law 1999, chapter 283 allows a person to use fish scales as a crop nutrient supplement without a license as long as the type of scales and the process for extracting, handling and spreading the scales have received initial review and approval by the Department of Environmental Protection, that the farm using fish scales has developed and implemented a nutrient management plan and that the person supplying the fish scales provides the department with the name of the person receiving the scales, the location where the scales will be used and the quantity of the fish scales shipped within seven days of shipping the scales.

Chapter 283 was enacted as an emergency measure effective May 21, 1999.
