August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. --	-----------------------------------	------------------------------------

LD 857 proposed to allow certified nurse practitioners and certified nurse midwives participating in managed care plans to serve as primary care providers.

Committee Amendment “A” (H-630) proposed to replace the bill. The amendment proposed to require that certified nurse practitioners be permitted to serve as primary care providers in managed care plans if the certified nurse practitioner is approved by the State Board of Nursing to practice advanced practice registered nursing without the supervision of a physician and meet the managed care plan’s credentialing standards. The amendment proposed to clarify that carriers are not required to credential nurse practitioners or physicians as primary care providers if their existing network of providers meets the access and provider network standards adopted by the Bureau of Insurance. The amendment also proposed to require that carriers provide coverage for the services of certified nurse practitioners and certified nurse midwives provided to individuals referred by a primary care provider. The amendment also proposed to clarify that carriers must provide coverage for the services of certified nurse practitioners and certified nurse midwives in indemnity or other health insurance plans that do not require the selection of a primary care provider when those services are covered services and when they are within the lawful scope of practice of the certified nurse practitioner or certified nurse midwife. The amendment would have required that carriers assign identification numbers or codes to certified nurse practitioners and certified nurse midwives who provide services covered by the carrier’s health plans. The amendment proposed to add an application date of March 1, 2000 and also proposed to add a fiscal note to the bill.
