LD 1206

An Act to Provide for the 1999 and 2000 Allocations of the State Ceiling on Private Activity Bonds

**PUBLIC 443
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
KONTOS O'NEAL	OTP-AM	S-341 S-362 KONTOS

LD 1206 proposed to establish the allocations of the state ceiling on issuance of tax-exempt bonds for calendar years 1999 and 2000. Under federal law, a maximum of \$150,000,000 in tax-exempt bonds benefiting private individuals or entities may be issued in Maine each year. This bill allocates the state ceiling among the state-level issuers of tax-exempt bonds.

Committee Amendment "A" (S-341) replaced the bill and proposed to establish the allocation of the state ceiling on issuance of tax-exempt bonds for calendar years 1999 and 2000.

This amendment would establish the Loans to Lenders Pilot Program to study the feasibility of and implement a pilot program by which private lending institutions could access a portion of the proceeds of bonds issued using an allocation of the state ceiling allocated to the Finance Authority of Maine for education loans. The authority of the Finance Authority of Maine to issue bonds under the Loans to Lenders Pilot Program would terminate on March 1, 2000.

This amendment would change membership of the group that may allocate and reallocate with respect to the state ceiling during any time that the Legislature is not in session.

This amendment would require that bonds issued using an allocation of the state ceiling be used for the benefit of Maine individuals, communities or businesses and would require bond issuers to annually report to the Governor and the Legislature on who benefited from the state ceiling.

This amendment would require an issuer or lender to provide, prior to receiving an allocation of the state ceiling for the issuance of education loans, examples of the disclosures to be made to loan recipients or obligors. It also would require that federally authorized student loans purchased or originated with proceeds of tax-exempt bonds using a portion of the state ceiling be guaranteed by the Finance Authority of Maine until July 15, 2000. The Finance Authority of Maine would be required to use its best efforts to provide competitive rates for the guarantee function. This amendment also creates the requirement that the members of the Maine Educational Loan Authority are subject to confirmation by the Legislature.

This amendment would establish the Commission on the State Ceiling on Tax-exempt Bonds to study the allocation of the state ceiling on tax-exempt bonds. The commission would report its findings and proposed legislation to the Joint Standing Committee on Business and Economic Development by January 14, 2000.

This amendment also added a fiscal note to the bill.

Senate Amendment "A" to Committee Amendment "A" (S-362) proposed to clarify that credit unions are included in the definition of lenders eligible to receive loans under the Loans to Lenders Pilot Program.
