FIRST REGULAR SESSION

Summary Of Legislation Before The Joint Standing and Select Committees
August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

This bill has been carried over to the Second Regular Session.

LAWRENCE THOMPSON	OTP-AM MAJ ONTP MIN	S-352 S-436 LONGLEY

LD 1325 proposed to expedite the operation of prelitigation screening panels under the Maine Health Security Act by allowing the hearing to be bypassed completely if it has not been held within 4 months, shortening certain time periods and allowing statements and presentations of the case in writing. The bill also proposed to clarify the role of the prelitigation screening panels by changing the standard of proof used by the panel, and how the findings may be used. The bill proposed that testimony made under oath in the panel proceedings can be used in subsequent proceedings for the purpose of impeachment.

Committee Amendment "A" (S-352), the majority report, proposed to replace the bill. It proposed to limit depositions and require the panel to maintain a tape recorded record of the panel proceedings to be used for limited purposes in subsequent proceedings. The amendment proposed to change the standard that the panel must use to make its findings: whether the evidence, if properly substantiated, is sufficient to raise a legitimate question appropriate for judicial inquiry concerning the liability of the health care practitioner or health care provider. The panel findings would be admissible in court only if the panel were unanimous in finding against the claimant.

Senate Amendment "A" to Committee Amendment "A" (S-381) proposed to amend the comparative negligence question for the panel by requiring a finding of professional negligence before the panel considers whether the patient was also negligent. It also proposed to revise the admissibility of panel findings. (Not adopted)

Senate Amendment "B" to Committee Amendment "A" (S-436) proposed to incorporate the changes made by Senate Amendment "A" to Committee Amendment "A" to the bill and change the circumstances under which unanimous panel findings unfavorable to the person accused of professional negligence are admissible in a subsequent court action for professional negligence.
